CONTOUR DIO-ICE // 2 HANDLES

QUAD WAVELENGTH LHR SYSTEM

AMERICAN COHERENT LASER BEAMS

TECHNICAL SPECIFICATIONS

Laser Type: Semiconductor Laser

Power: 3000w

Power of Handle(s): 1200w - 600w

Wavelength(s): 755, 808, 940 and 1064

Screen Size: 12.4 Inch

Energy Density: 1-1200j/cm² (Deviation $\leq \pm 2\%$)

Pulse Width Range: 1-100ms

Spot Size(S): 12*20mm; 12*12mm

Frequency: 1-10hz

Cooling System: Tec Cooling System

Net Weight: 57kg

Dimension: 470*500*1330mm

Package Size: 530*492*1120mm

Fuse Specification: $\varnothing 5 \times 25$ 10a

Voltage: Ac220v $\pm 10\%$ 10a 50hz, 110v $\pm 10\%$ 10a 60hz

ENERGY, PULSE WIDTH AND FREQUENCY ADJUSTMENT, WITH REAL-TIME TEMPERATURE MONITORING

TOUCH SCREEN HANDLE, ADJUST SETTINGS FROM THE HANDLE OR MACHINES SCREEN

SPOT SIZE 12/20MM SUITABLE FOR SMALL AND LARGE AREAS

SPOT SIZE 12/12MM SUITABLE FOR SMALLER AND INTIMATE AREAS

UNIQUE FACIAL HEAD ATTACHMENT INCLUDED. EASILY TREATS SMALL FACIAL AREAS (EARS, BROWS, HAIRLINE ETC.) AND INTIMATE AREAS

SLEEK, ATTRACTIVE & MODERN DESIGN SHELL

Premium quality design and construction is joined with the world's most durable and reliable laser components.

Making this device not only affordable, but also reliable with exceptional performance driven results for your clients.

- Elite & ergonomic design
- Durable
- Built to last
- Simple operation
- Easy to manoeuvre
- Easy to clean & maintain
- Lightweight versatile handles
- Reduces strain on technician
- Quick & simple filter and water changes

EXPLORE THE BENEFITS

- ✦ 4 WAVELENGTHS • 755 ALEXANDRITE • 808 DIODE • 940 INFRARED Nm • 1064 ND YAG
- ✦ CE & FDA APPROVED DEVICE
- ✦ 2 HANDLES WITH SMALL & LARGE SPOT SIZES CONVENIENT FOR ALL TREATMENT AREAS
- ✦ PLUS ADDITIONAL FACIAL TIP ATTACHMENT FOR SMALLER & INTIMATE AREAS
- ✦ 100 MILLION SHOTS IN EACH HANDLE !
- ✦ CRYSTAL FREEZE ICE COOLING TECHNOLOGY FOR PAINLESS TREATMENTS
- ✦ INTEGRATED COOLING SYSTEM FOR CONTINUOUS UNINTERRUPTED TREATMENT USE
- ✦ 10 hz PULSE SPEED FOR SUPER FAST TREATMENT TIMES
- ✦ SUITABLE FOR ALL SKIN TYPES (EVEN TREATS THE DARKEST PHOTO TYPES SAFELY)
- ✦ TREATS ALL HAIR COLOURS AT DIFFERENT STAGES OF HAIR GROWTH FOR OPTIMUM RESULTS
- ✦ 4K TOUCHSCREEN TECHNOLOGY (12.4 INCH LCD SCREEN) PLUS LCD SCREENS ON HANDLES TO CHANGE SETTINGS
- ✦ AMERICAN COHERENT LASER BEAMS

Grow your beauty salon with the Contour Dio-Ice from Contour Group™. The Dio-Ice's Quad Wavelengths (755 Alexandrite - 808 Diode - 940 Infrared - 1064 ND Yag) offers the four most effective laser hair removal wavelengths on the market, simultaneously working in unison. Allowing you to safely treat ALL skin types and target hair growths at different stages for optimum, quick results. The quad wavelength is considered the Gold Standard in Laser Hair Removal for the face and body. The removal process is very effective, painless and comfortable. The different handles provide different area sizes and power settings, allowing for a complete treatment of your client's body regardless of skin/hair type.

Contour Dio-Ice treats **all skin types and areas** safely and effectively, with the fewest number of treatments. The laser emits near-infrared laser light that is absorbed by the melanin located in the hair follicle. The laser is pulsed for only a fraction of a second. The duration of each pulse is long enough to damage the follicle, without damaging the surrounding tissue.

It offers the ability to treat with high efficiency and comfort. 6-10 sessions minimum (spaced 4-8 weeks apart), are required in order to completely remove hair, with annual maintenance treatment sessions to keep the hair gone. Some patients report no further hair growth after only 6-8 sessions. Lighter hair types or particularly dense, coarse hair types may require 8-12 sessions.

PRINCIPLE OF TREATMENT

The Contour Dio-Ice Quad Laser Hair Removal Machine is one of the most advanced and effective Diode LHR machines on the market. The 4 specialised combined Wavelengths safely penetrate the top layer of the skin, targeting and reaching the hair follicle, hair bulge and hair bulb. The light and heat energy transmitted and absorbed by the hair, damages and destroys the follicle and bulb. The bulb loses its ability to regenerate without damaging the surrounding skin tissue. The Dio-Ice treats All Skin Types and Hair Types safely and effectively with low heat sensitivity experienced by clients, thanks to its integrated Crystal Ice Cooling Technology. Treatment time is reduced thanks to the super fast pulse rate setting options, which are interchangeable both on the large screen and on the small LCD screens on each handle.

FAST TREATMENT

"IN-MOTION" intelligent mode allows ultimate treatment and pulse speed to 10 Hz shots per second, saving on treatment time. Full body treatments can be completed in 50 mins

EFFECTIVE

Powerful Supply and Output with US coherent imported laser beams: Excellent results guaranteed

SAFE ON ALL SKIN TYPES

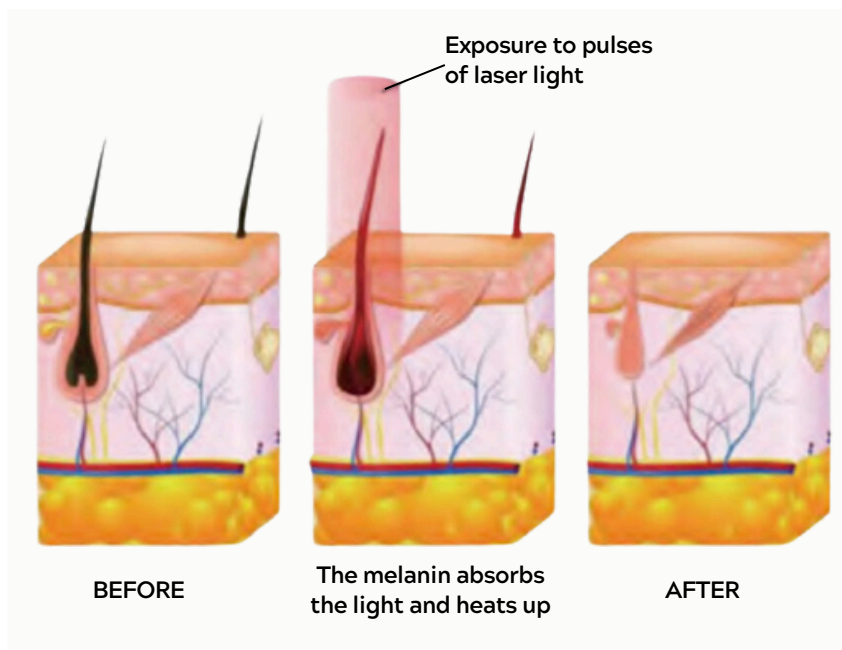

Gold standard technology with clinical evidence of safe & effective laser hair removal on all skin and hair types

EASY TO USE

The system allows the operator to easily, accurately and safely select treatment areas and energy/speed settings for each skin type. Real time adjustments allow fast and simple setting adaptment changes during treatments.

BUILT TO LAST

Highest specification components and Integrated TEC crystal cooling system, ensures the device can be used continuously for long periods without compromising machine operation or client results

UNRIVALLED QUAD WAVELENGTH TECHNOLOGY

SUITABLE FOR ALL SKIN TYPES

The Dio-Ice Quad wavelength technology allows for the treatment of **ALL** skin types and hair colours, whilst effectively targeting the different stages of hair growth, optimising results for your clients

755

ALEX offers more powerful energy absorption by the melanin chromophore. Making it ideal for light coloured skin and fair, thinner hair types. Targeting the bulge of the hair follicle, it is especially effectively for superficially embedded hair.

808

DIODE is the classic wavelength for most LHR units, offering deep penetration of hair follicles with high average power. Universally suitable and safe for most hair and skin types.

940

INFRARED this wavelength provides better absorption by oxyhemoglobin (coagulation of micro-vessels that feed the hair root) and a moderate penetration depth that makes it suitable for treating all hair types. Melanin absorption is low, meaning it is very safe for working on dark skin types.

1064

YAG this wavelength is used for tanned/dark skin with lower melanin absorption, making it a perfect focused solution for darker photo-types. At the same time, 1064 offers the deepest penetration of the hair follicle without compromising surrounding dark skin tissue damage.

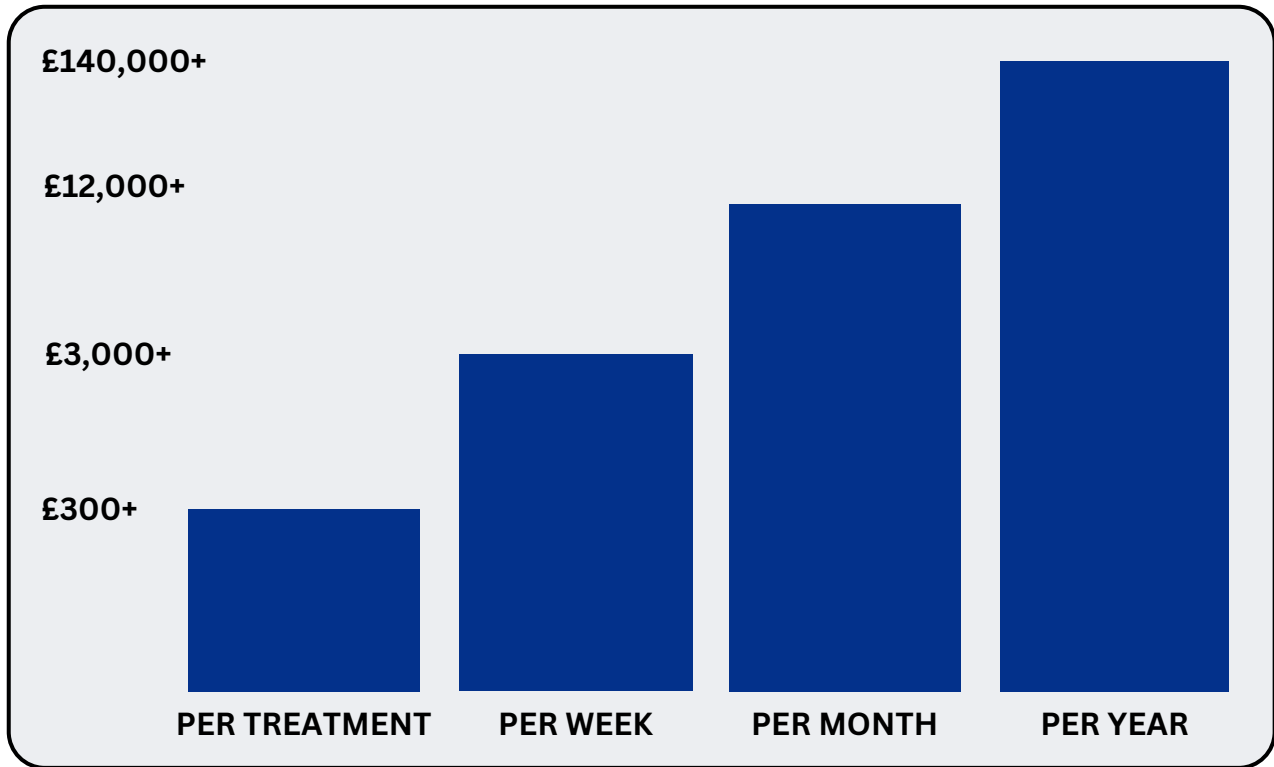

TREATMENT TIME & PRICE GUIDANCE

LASER HAIR REMOVAL		
TREATMENT AREA	DURATION (mins)	PRICE (£)
Unibrow Glabella	10	35.00
Top Lip	10	40.00
Chin	10	50.00

Rachel Manterfield purchased our [Contour Dio-Ice](#), 2 handle LHR Device in February 2022
[@LoveLaserHairRemoval](#)

“ This lasering is nuts!!! It’s not even 2pm & I’ve took £2000! (And I’ve had a break) Thank you so much for this opportunity. ”

“ I’m having some really good results from the laser and I’m so busy that I’m expanding in the new year and opening a wellness hub with a cafe attached, I wouldn’t be able to even think about that if I hadn’t got the laser from you guys! ”

Leeann Griffiths purchased our [Contour Dio-Ice](#), 2 handle LHR Device in 2022

OUR PAYMENT OPTIONS

Contour Group offers **easy and affordable purchasing options that perfectly fit your business' cash flow**. We are here to assist you in providing the finest beauty/laser treatments at your clinic or beauty salon, using the latest and most advanced beauty devices available from us.

INCREASE YOUR PROFITS!

We assist you in unlocking your business' potential, allowing you to boost revenue streams and ultimately generate additional income to fuel the growth of your business! Our cost-effective payment options provide a dual advantage for your clinic, tailored specifically to your unique individual or business circumstances.

OUR MULTIPLE PAYMENT OPTIONS

PURCHASE OUTRIGHT (SELF-FUNDING)

If you wish to make a full payment for a machine without any financing options. To initiate the process, [please email us at sales@contourgroup.co.uk](mailto:sales@contourgroup.co.uk) stating the specific machine(s) you are interested in purchasing. We will issue an invoice for payment.

FLEXIBLE FINANCE

Secure financing through our dedicated partners at Admiral Leasing. Enjoy the flexibility of fixed repayment terms (2-5 years) with or without a deposit. You also have the choice of deferred payments, where you don't need to make any payments for 6 months, or pay just £50.00 for the first 6 months. Select the repayment duration that best aligns with your requirements. (Subject to a finance credit check) **Tel: 0161 628 1250 and ask for our personal reps Carol, Hayley or Frances.**

INTEREST FREE FINANCE

Pay a required deposit and spread the remaining balance over 6-12 months, on our interest free monthly repayment agreement.

GOVERNMENT BACKED BUSINESS STARTUP LOAN SCHEME

An unsecured loan for new business' or business' trading less than 36 months. Terms available: 1-5 years. Loans available for up to £25k. With no early repayment penalties and a government fixed rate of 6%. [Click here to apply](#)

Taylor Harrod (Laser Business Owner)

Taylor purchased our [Contour Dio-Ice](#), 2 handle LHR Device in October 2021 [@LaserAwayByTay](#).

Buying the Contour Dio-Ice was the best business decision ever! I made so much money in the first few months of trading and my laser business has flourished so much that I then purchased the Contour Focus 11D HiFu Machine in Jan 2024. My clients results are always excellent and I cannot recommend Contour Group enough for their continued customer service, thorough training & fantastic machines

WE ARE CONTOUR GROUP™

Providing the latest cutting edge, innovative and advanced treatment machine solutions for beauty and aesthetic clinics.

The origin of the Contour Group™ was as a salon and beauty clinic looking to make more money. When researching ways to increase staff efficiency and boost overall monthly revenue, the group researched and cultivated excellent machinery to make beauty clinics dramatically increase their profits whilst providing unparalleled treatment results for their clients.

All of our machines come with a 12-month parts and labour warranty.

To book a free Zoom video machine demo, or a face-to-face machine demo, please email:- sales@contourgroup.co.uk
