Our handles, serums and treatment steps work in unison by thoroughly cleansing, de-congesting, exfoliating and moisturising the surface skin. Unclogging pores and leaving skin clean and resurfaced.

## AQUA PEEL

Deep skin cleanse, thorough exfoliation, removal of dead skin cells, detox and decongest pores, pore minimisation, sebaceous oil and blockage control

**Aqua Peel with vacuum suction tip, utilising**

**a combination of THREE serums (AHA base, RH-oligopeptide-1, Hexapeptide base, BHA solutions) to:**

- Cleanse
- Exfoliate
- Extract
- Hydrate

## ELECTRO-ION

Skin tissue and muscle stimulation, using electroporation positive (+) and negative (-) currents to improve elasticity.

**The ultimate glow-up for dull and tired looking skin:**

- Eyebrow lifting
- Jowl lifting
- Jawline lifting

## RADIO FREQUENCY

RF multipolar anti-ageing technology, tightens skin, increasing collagen production for a youthful appearance.

**RF skin tightening is the perfect edition to any spa facial treatment:**

- Improves skin elasticity
- Tightens/lifts skin
- Safe and pain free
- Immediate effect

## ULTRASOUND+ HYDRATION

Ultimate product infusion and skin hydration through advanced ultrasound technology.

**Targets dehydrated skin and assists with deeper absorption of serums and nutrients through the skin barriers:**

- Superior hydration
- Heightened product absorption
- Smooths skin texture
- Improves fine lines and wrinkles

## ULTRASONIC VIBRATION SKIN CLEANING TOOL

- **Cleaning Function:** Includes ultrasonic cleaning mode and positive ion extraction mode. The facial scrubber produces high frequency vibrations to clean facial acne, comedones, blackheads, blemishes and dead skin.
- **Moisturising function:** Includes moisturising mode and negative ion infusion mode. This product helps to penetrate the toner/serum deep into the cuticle layer, optimising, hydrating elastic skin, less wrinkles, tight pores and better skin metabolism.
- **Lifting function:** Improve blood circulation, stimulate collagen regeneration, lift sagging facial muscles, eliminate wrinkles, tighten contours, make facial lines clearer, thus achieving the effect of tightening and lifting the face, giving you smoother, brighter and younger skin.

## FIRE & ICE

Cooling and heating handle to invigorate the skin and brighten/even skin tone.

**Increase blood supply and circulation with 42°C heating system that strengthens the skin and aids product infusion. Finish off by cooling the skin down to 5°C for a radiant tightening effect and closure of pores.**

## CARBON EXFOLIATION

Deep exfoliation using oxygenated bubbles with active ingredients (Kojic acid & Retinol) to buff the skin and remove dead skin cells.

**The “BOHR” effect uses carbon oxygen bubbles to release oxygen inside of the skin:**

- Thorough exfoliation
- Targets pigmentation and blemishes
- Achieves brighter & hydrated skin

## OXYGENATION JET

Jet anti-oxidation technology sprays concentrated oxygen molecules in to the Epidermis to nourish the skin and promote Collagen renewal.

**The jet spray creates a “Venturi” effect, breaking down the product’s molecules for maximum product absorption and skin hydration:**

- Improves dull complexion
- Deeply hydrates skin
- Increases cell metabolism

## IMMEDIATE RESULTS ARE VISABLE!

Clients will report seeing visibly hydrated, refreshed and radiant skin refinement after just 1 treatment and the smooth results and hydration can last up to **7 to 14 days**.

The Contour HydroFacial treatment achieves this through a process of steps uses handles and serums:

### **CLEANSE + EXFOLIATION**

The application of lightweight Exfoliation serum removes dead skin cells to uncover healthy skin.

### **PEEL**

A mixture of serums and mild Acids then delivers the benefits of a peel without post-peel scaling.

### **EXTRACTION**

Patented, painless vortex-suction cleans out pores with the help of water and further serums

### **REFRESH**

Finishing serum is delivered to nourish and protect skin with Antioxidants, Peptides and Hyaluronic Acid.
